Janine*,

Well, the past year we haven't really been as close as in the years past, but we made it through one rough time! You were always there though when I really needed a friend. You already know you're the closest friend, & the best friend I have ever or will ever have. You are something special, you always try and help me whenever I'm down. I know I can always depend on you!! Through the years we have had some great times and experiences. We been through just about everything together** You know I will always be here when you need me. I hope these next two years we be super great for us, cuz I'm looking forward to some more great times. I love ya to death and you know I'd do anything for you. Well, I guess this is it. I've had a lot of fun with you in the past 3 years. I'm sorry we haven't been closer. Maybe we'll get a chance to talk more this year. Good luck in all your endeavors.
Love Always
Becky

Dear Lisa,

Thanks for the
email - no problem
at all. I'm really
sorry that I won't
be able to make it
to your party, that
sounds like a great
idea. Unfortunately
I've got to work
that night as I'm
working to short
notice cover for
someone who is ill.
Bugger, I was really
looking forward to
seeing you all and
celebrating your
birthday with you.
Anyway, I'll be
thinking of you
and hope you have
a great night.
Please give my
love to Mark and
the children.
Best wishes,
Jane

P.S. Please give
my love to Mark
and the kids.
Are you not
working on
Friday night?
I'll be free
then if you
fancy meeting
up for a drink
or something!

Lisa

So think we've come from pinto-power to getting jobs together. What about all those notes in Whitmore's class & we wonder why I failed! You're just a better cheater! I could never write how much I care about you - even though we consider each other dorp - I think you're the best! For Real!

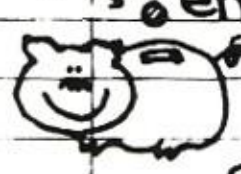
ADVERTISEMENTS

You can help.



You've heard a lot about the need to conserve electricity and all forms of energy. Not only does conservation help save our nation's precious energy resources, it helps you and your family save money since the cost of energy is a big chunk out of most families' budgets. You can help your family by doing your part... make sure you close doors and windows when the heating or air conditioning unit is on; don't "graze" when you raid the refrigerator - know what you want before you open the door; hot water takes energy - try a shorter shower; and make sure the television or stereo is off when you're through with it. Work with your family to save energy now... you'll help make sure there will be enough for everyone when you start a family of your own.

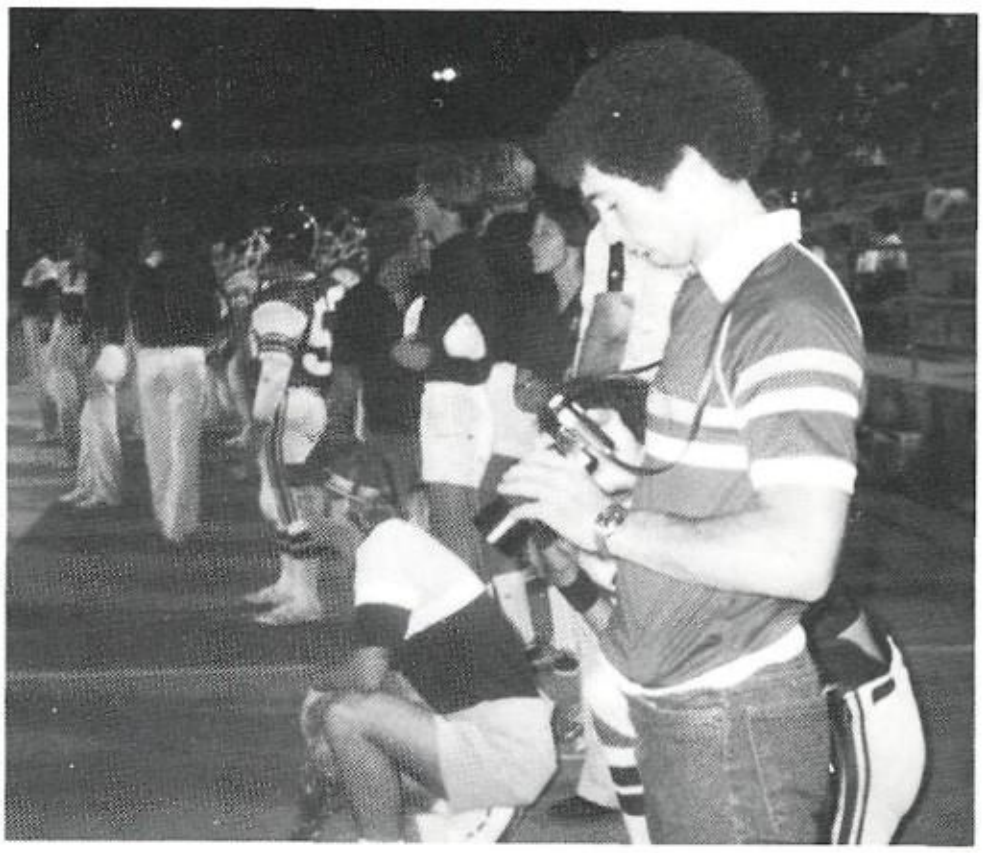
Looking Back



Janine,

Well, we've had some really good times, and some bad ones' but more of the good I think. You've been a real special person to me all this time I've known you and you'll always - (pen just ran out) be special too. You are very smart and super-good looking and I know you'll do great in whatever you do. I'm sorry that we didn't work out this time, but there's always a next. I know I joke around alot and sometimes it makes you mad, I'm sorry about all of that. Good luck in all-★'s, I know you'll make every game. If you ~~are~~ ever need anything I'll always ~~be~~ be here to help.

Have fun this year and be good.

Love You,
